CONTENTS OF VOLUME VIII.

No. XV.

ORIGINAL COMMUNICATIONS.

I. Some Observations on the Subject of the Mode of Connection between the Mother and Fœtus in Utero. By John Redman Coxe, M.D., Professor of Materia Medica and Pharmacy in the University of Pennsylvania. 13

II. Notices in Pathology and Therapeutics. By George B. Wood, M.D. Professor of Chemistry in the Philadelphia College of Pharmacy. 34

III. Remarks on the Remedial Value of Arsenic. By D. Theodore Coxe, M. D. 41

IV. On Hæmatemesis. By D. Francis Condie, M.D. 47

V. On Emphysema of the Lungs as a Cause of Asthma; with two Cases. By B. H. Coates, M.D. one of the Physicians to the Pennsylvania Hospital. 64

VI. Case of Paralysis occurring in a Child, and attended with Anomalous Symptoms. By J. Marshall Paul, M.D. of Philadelphia. 70

VII. An Essay on the Affections supposed to result from the Bites of Animals, and known by the appellation of Hydrophobia. By J. C. Rousseau, M.D. Member of several learned Societies. 73

VIII. Case of Instrumental Labour, attended by Circumstances of Peculiar Difficulty, in which Embryotomy was performed. By Henry Neill, M.D. of Philadelphia. 92

IX. Account of a Case in which Portions of Three Dorsal Vertebræ were removed for the relief of Paralysis from Fracture, with partial success. In extracts from a letter to Dr B. H. Coates. By Alban G. Smith, M.D. of Danville, Kentucky. 94

ANALYTICAL REVIEWS.

X. Traité de la Moelle Epinière et de ses Maladies. Par C. P. Ollivier, D.M. d'Angers.
A Treatise on the Spinal Marrow, and its Diseases. By C. P. Ollivier, M.D. of Angers. Paris, 1827. 2d edition. 2 Volumes. Pp. 843. 98

XI. Commentaries on the Causes, Forms, Symptoms, and Treatment, Moral and Medical, of Insanity. By George Man Burrows, M.D. Member of the Royal College of Physicians of London, &c. &c. London, 1828. Pp. 716. 123

XII. Researches into the Causes, Nature, and Treatment of the more Prevalent Diseases of India, and of Warm Climates generally. Illustrated with Cases, Post Mortem Examinations, and numerous Coloured Engravings of Morbid Structures. By James Annesley, Esq. of the Madras Medical Establishment. Late Surgeon to the Madras General Hospital, &c. Two volumes, quarto. London, 1828. Pp. 1395. 148

BIBLIOGRAPHICAL NOTICES.

XIII. Quædam de Phlegmasiæ Albæ Dolentis Pathologia. Dissertatio Inaugur. Medica; Oct. 1826. Auc. H. G. Grimm, Halberstadiensis. Berlin, 1829. 173

XIV. Elements of Chemistry, including the Recent Discoveries and Doctrines of the Science. By Edward Turner, M.D. F.R.S.E. Professor of Chemistry in the University of London, &c. &c. Second Edition, enlarged and carefully revised. London, 1828. 8vo. Pp. 831. 174

XV. Description of the Distinct, Confluent, and Inoculated Small Pox, Varioloid Disease, Cow Pox, and Chicken Pox. Illustrated by Thirteen Plates. By John D. Fisher, M.D. Boston. Wells & Lilly. 1829. 175

XVI. De l' Irritation et de la Folie, Ouvrage dans lequel les Rapports du Physique et du Moral sont établis sur les bases de la Medecine Physiologique. Par F. J. V. Broussais, D.M. &c. &c. Paris, 1828. Pp. 590. 177

XVII. Experiments to establish a Peculiar Physico-Organic Action inherent in the Animal Tissues, called Endosmose and Exosmose. By Joseph Togno, M.D., Member of the Philadelphia Medical Society. Philadelphia, 1829. Pp. 23. 178

XVIII. Journal of the Philadelphia College of Pharmacy. Edited by Benjamin Ellis, M.D. Professor of Materia Medica and Pharmacy in the College, assisted by a Publishing Committee consisting of Daniel B. Smith, Charles Ellis, S. P. Griffitts, Jr, and George B. Wood, M.D. Professor of Chemistry in the College. Published by the College. No. I. April 1829. Pp. 80. 179

QUARTERLY SUMMARY OF MEDICAL INTELLIGENCE.

I. Anatomy.—1. The Ear; Nerve of the Tensor Tympani Muscle. 2. Nature of Hydatids. 3. Professor Huschke of Jena on the Structure of the Kidney. 4. Wedmeyer on a Canal in the Optic Nerve of the Fœtus. 5. Calmeil on the Spinal Marrow. 181

II. Physiology.—6. Benorden on the Circulation. 7. Occlusion of the Larynx not inconsistent with Voice. 8. Proportion of Sexes in France. 9. Proportion between the Nervous System and other Parts. 10. Sense of Touch. 11. Inoculation for Hydrophobia. 181

III. Pathology.—12. Hydrophobia. 13 Tetanus. 14. Myelitis. 15. Delirium Tremens. 16. Melæna with Hardening of the Pancreas. 17. Congenital Ovarian Dropsy. 18. Peculiar Eruptive Disease epidemic among Children. 19. Rupture of the Hepatic Duct. 20. Catalepsy with Fever. 21. Case of Worms stimulating Acute Hydrocephalus. 22. Softening of the Organs and Tissues, not always the Effect of Inflammation. 23. Causes of Induration. 24. Compression of the Diaphragmatic and Pneumo-Gastric Nerves, simulating Disease of the Heart. 25. Cholera Morbus. 26. Intermittent Pulmonary Catarrh. 27. Cerebral Atrophy. 28. General Phlebitis. 29. Phlegmasia Dolens in a Male. 30. Latent Tubercular Phthisis—Pneumo-Thorax. 31. Œdema of the Glottis. 185

IV. Therapeutics, Materia Medica, and the Practice of Medicine.—32. Combination of Belladonna, Ipecacuanha, and Sulphur in Pertussis. 33. Specific for the Hooping Cough. 34. Deleterious Effects from a Combination of Nitre and Sulphur taken internally. 35. Solution of Nitrate of Silver in Diseases of the Eye. 36. Acupuncturation. 37. Chloride of Gold in Diseases of the Eye. 38. Iodine in Vapour as a remedy for Phthisis Pulmonalis. 39. Intermittent Fevers treated by the Sulphate of Quinia, applied according to the Endermic Method. 40. Experiments on the action of Morphia and its Acetate. 41. A Combination of Iodine and Morphia in Glandular Affections. 42. Iodine in White Swellings. 43. Chlorine in Hydrophobia. 44. Inflammations produced by the Use of Mercury. 45. Treatment of Tænia.

46. Acupuncturation in India. 47. Acute Glossitis successfully treated by the Antiphlogistic Method. 48. Bite of a Viper cured by the application of Cupping Glasses. 49. Case of Delirium Tremens, treated by Local Bloodletting and Purgatives, previous to the administration of Opium. 50. Is the Appearance of the Blood abstracted a Criterion of the Propriety of Venesection? 51. Convulsions cured by a Warm Pediluvium and Cold Fomentations to the Head. 52. Gonorrhœa cured by Injections of Balsam Copaiba. 196

V. Medical Jurisprudence.—53. On the Effects of the Sulphurets of Arsenic, Lead, Copper, and Mercury, on the Animal Economy. By M. Orfila. 54. Case of Intus-Susception which was liable to be mistaken for Poisoning. By M. Rostan, Physician to the Saltpetriere. 55. Sulphate of Copper mixed with Bread. 206

VI. Surgery.—56. Polypus of the Vagina removed by the Local Application of Laudanum. 57. Tumours on the Tongue. 58. Extirpation of a Cancerous Tumour from the Neck of the Uterus. 59. Extirpation of the Parotid Gland. 60. Reduction of the Os Humeri at the Expiration of Five Months. 61. Tumour of the Rectum Extirpated. 62. Excision of the Cervix Uteri. 63. Rupture of the Ilium. 64. Trephining. 65. Luxation of the Clavicle. 66. Foreign Body in the Œsophagus. 67. Tracheotomy. 68. Popliteal Aneurism, cured by a Temporary Ligature. 69. Varicocele. 70. Ganglions. 71. Ligature beyond the Aneurismal Tumour. 72. Lithotritie. . 211

VII. Midwifery.—73. Abdominal Pregnancy. 74. Delivery through the Parietes of the Abdomen. 75. Cæsarean Operation. 76. Absorption of the Placenta by the Uterus. . . . 217

VIII. Chemistry and Pharmacy.—77. Mr Graham's Method of Procuring Absolute Alcohol. 78. Weight of Pure Atmospheric Air. 79. Composition of Crystallized Oxalic Acid. 80. Action of the Sun's Rays on Nitrate of Silver dissolved in Common Water; by M. Vogel, of Munich. 81. Process for extracting Urea; by M. Henry, Jun. 82. Nature of Starch. 83. Detection of Mixtures of Potato Starch with Wheat Flour. 84. Crystallizable Matter of the Essential Oil of Orange Flowers, by M. A. Plisson. 85. Nature of Copaiba. . 219

MISCELLANEOUS ARTICLES.

Notices of New Publications.—Edwards's & Vavasseur's Materia Medica and Pharmacy; translated from the French by J. Togno, M.D. and E. Durand.—New York Medical and Physical Journal.—New York College of Pharmacy. 223

No. XVI.

ORIGINAL COMMUNICATIONS.

I. Essay on Delirium Tremens. By Joseph Peace, M.D. 225

II. A Case of Crusta Lactea, with Remarks. By Thomas D. Mitchell, M.D. of Frankford, Pennsylvania. 239

III. Fatal case of Colica Pictonum. By Edward Jenner Coxe, M.D. 243

IV. A Protean Case, commencing with Ophthalmia, followed by Laryngitis, Gout in the Stomach, Gastro-Peritonitis and Dyspepsia. By Edward Jenner Coxe, M.D. one of the Physicians to the Pennsylvania Institution for the Deaf and Dumb. 248

V. Account of the Treatment of Gangrenous Sore Throat, principally by Gargles of Infusion of Red Pepper. In a Letter to one of the Editors. By Alban G. Smith, M.D. of Danville, Kentucky. . 253

VI. Remarks on the Pathology and Treatment of Intermittent Fever. By John Bell, M.D. 256

VII. Observations on Pulmonary Consumption. By Joseph Parrish, M.D. 274

VIII. On Aneurism and Inflammations of the Larger Arteries. By B. H. Coates, M.D. one of the Physicians to the Pennsylvania Hospital. 286

IX. Remarks on French Practice. Communicated in a Letter to Charles D. Meigs, M.D. of Philadelphia. By R. La Roche, M.D. . . 293

ANALYTICAL REVIEWS.

X. De la percussion médiate et des signes obtenus a l'aide de ce nouveau moyen d'exploration, dans les maladies des organes thoraciques et abdominaux. Par P. A. Piorry, D.M. &c. Paris, 1828, 8vo. Pp. 356. 319

XI. An Account of some of the most Important Diseases peculiar to Women. By Robert Gooch, M.D. London. 8vo, 1829. Pp. 432. 339

XII. Commentaries on the Causes, Forms, Symptoms, and Treatment, Moral and Medical, of Insanity. By George Man Burrows, M.D. Member of the Royal College of Physicians of London, &c. &c. London, 1828. Pp. 716. 354

BIBLIOGRAPHICAL NOTICES.

XIII. Rapport lu à Académie Royale de Médecine, dans les Séances du 15 Mai et 19 Juin 1827, au nom de la Commission chargée d'examiner les Documents de M. Chervin, concernant la Fièvre Jaune. Publié textuellement d'après l'edition de l'Académie, et accompagné de remarques. Par Le Dr Chervin.

Examen des Principes de l'Administration en matiere sanitaire, ou Réponse au discours prononcé à la Chambre des Députés, le 31 Mai 1826. Par M. De Boisbertrand, Directeur de l'Administration Générale des Etablissements d'Utilité Publique. Par N. Chervin, D.M.P.

Réponse au Discours de M. Le Dr Audouard, contre le Rapport fait à l'Académie Royale de Médecine de Paris, sur mes Documents concernant la Fièvre Jaune. Par N. Chervin, D.M.P.

De la Nullité des Prétendus Faits de Contagion obsérvés à Barcelone en 1821, ou Deuxième Reponse à M. Audouard, D.M.M. &c. Par N. Chervin, D.M.P.

Réponse aux Allégations de M. Le Dr Gerardin, contre le Rapport de la Commission de l'Académie Royale de Médecine, chargée de l'examen de mes Documents sur la Fièvre Jaune. Par N. Chervin, D.M.P.

Pétition du Docteur N. Chervin, contre la Formation des Lazarets, projetés depuis 1822, dans la vue de mettre la France à l'abri de la Fièvre Jaune. 387

XIV. Ricerche Chimico-Terapeutiche su la Radice di Poligala Virginiana. Di Giacomo Folchi, P. Prof. nell' Archiginnasio Romano e Medico primario in S. Spirito. 393

QUARTERLY SUMMARY OF MEDICAL INTELLIGENCE.

I. Anatomy.—1. Rudiments of a Fœtus found in the Testicle of an infant six months old, by M. J. Wendt. 2. The Epiglottis in Infants. 3. A Woman with Three Mammæ, by Dr Drejer. . 396

II. Physiology.—4. Atrophy of the Right Hemisphere of the Brain. 5. Contractile Force of the Arteries. 6. Emphysema of the Lungs. 7. Transmission of the Vaccine Disease from the Mother to the Fœtus. 8. Partial Loss of Memory. 397

III. Pathology.—9. Phlebitis. Inflammation of the Left Spermatic Vein and Sinuses of the Uterus. 10. Lumbar Abscess opening into the Bronchia. 11. Chorea. 12. Carditis under the form of Chorea. 13. Spontaneous Combustion of both Hands. 14. Hypochondriasis dependent on Chronic Inflammation of the Stomach and Bowels. 15. Needle found in the Pericardium—Ulcer of the Heart. 16. Remarkable Case of General Emphysema. 17. Inflammation of the Sinuses of the Brain. 18. Induration of the Valve of the Brain. 19. Intermittent Tetanus. 20. Acute Watery Effusion in the Brain occurring without Inflammation. 21. Acute Purulent Ophthalmia following the Suppression of an Habitual Chronic Leucorrhœa. 400

IV. Therapeutics, Materia Medica and the Practice of Medicine.—22. Tannin in Uterine Hemorrhage. 23. Combination of the Lactuca Virosa and Digitalis Purpurea in Hydrothorax. 24. Mixture of Quinia and Digitalis Purpurea in Pulmonary Consumption. 25. Camphor Vaporized, a remedy for Chronic Gout and Rheumatism. 26. Tartar Emetic in large Doses. 27. The use of Tartar Emetic in Large Doses recommended first in England. 28. Partial palsy cured by Strychnia, locally applied. 29. Method of preventing Scar and Deformity from Small Pox. 30. Efficacy of Sponging with Cold Water in Measles. 31. Nitrate of Silver taken internally. 32. Intermittent Fever cured by Levigated Charcoal. 33. The use of Cathartic Medicines in the Diseases of Women. 34. Subcarbonate of Iron in Tetanus. 35. Effects of the Warm Bath. 36. Idiopathic Tetanus treated successfully by large Bleedings. 410

V. Medical Jurisprudence.—37. Report of a Trial for Murder, in which the Culprit was defended on the ground of his labouring under Mania a Potu, or Delirium from Intemperance. By Daniel Drake, M.D. 38. On the inefficacy of Ammonia, and Efficacy of the cold Affusion, in the treatment of Poisoning with Hydrocyanic Acid. 18

VI. Surgery.—39. Cheiloplastie (operation de)—(Operation for New Lip).—40. Treatment of Fistulæ. 41. Entropion. 42. Extirpation of Cancer of the Rectum. 43. Orchotomy. 44. Punctured Wounds. 45. Excision of the Superior Maxillary Bone. 46. Rectovaginal Fistula. 47. Ligature beyond an Aneurismal Tumour. 48. Wound of the Brachial Artery. 49. Spontaneous cure of Aneurism. 50. Aneurism in the palm of the hand. 51. Aneurism by Anastomosis. 52. Empyema. 53. Extirpation of the Ovaries. 423

VII. Widwifery.—54. Prevention of Abortion. 55. Pregnancy after Amputation of the Cervix Uteri. 56. Respiration in Reversed

Presentations. 57. Adhesion of the Placenta to the Head of the Fœtus. 429

VIII. Chemistry and Pharmacy.—58. Aspartic Acid. 59. Spontaneous Combustion of Sodium on Gum Water. 60. Iodide and Chloride of Nitrogen. 61. Artificial Diamonds. 62. Analysis of Buckwheat, by M. Zenneck. 63. On the detection of Corrosive Sublimate, by M. Orfila. 64. Action of Hydrobromate of Potassa on the Animal Economy. 65. On the Mudar of Hindostan. 66. New organic Alkalies, discovered in Cinchona Bark. 67. Detection of Mercury in Swaim's Panacea, by Robert Hare, M.D. Professor of Chemistry in the University of Pennsylvania. 68. Epispastic Ointment without Cantharides. 430

MISCELLANEOUS ARTICLES.

Notice of the Journal of Health.—Treatise on the Anatomy of the Groin. By W. Darrach, M.D.—An Essay on Malaria. By John M'Culloch, M.D.—Treatise on Pathological Anatomy. By W. E. Horner, M.D.—Manual of Materia Medica and Pharmacy. By H. M. Edwards, M.D. and P. Vavasseur, M.D. Translated from the French, by Joseph Togno, M.D. and E. Durand. 436

INDEX. 437
